Art Unit: 1614

Applicant's election with traverse of Group IV, claims 70-82 and 91-92 in Paper No. 10 is acknowledged. The traversal is on the ground(s) that a separate search would not be required to examine the claims of Group III along with Group IV. This is not found persuasive because the inventions are distinct and the search required for Group III is not required for Group IV.

The requirement is still deemed proper and is therefore made FINAL.

Claims 1-69 and 83-90 are withdrawn as not reading on the elected invention.

Upon further consideration applicant is required under 35 U.S.C. 121 to elect a single disclosed species from those disclosed in claim 73 for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 70-72 are generic. The species are classified in many different subclasses, including 514/177, 514/182, 514/217, 514/224.8, 514/669, among others.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

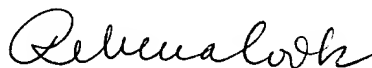

Art Unit: 1614

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Examiner Cook whose telephone number is (703) 308-4724. The examiner can normally be reached on Monday through Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Marianne Seidel, can be reached on (703) 308-4725. The fax phone number for the organization where this application or proceeding is assigned is (703) 308-4556.
